Dear Parent or Guardian:

We wanted to share wonderful news with you. We have once again been the recipient of the generosity of Mr. Curt Gerrish, President and CEO of Rochester Electronics. Mr. Gerrish has been a strong supporter of Immaculate Conception School and Catholic Education. He has donated a sizeable sum of money for specific capital improvements to ICS. We are very grateful to Mr. Gerrish for his continued support of our school.

We would also like to acknowledge the fulfillment of a long awaited dream for the Immaculate Conception School ó an Automatic External Defibrillator. This donation came through the generosity of a school family. We are most fortunate to have this equipment in our school.

We are blessed with wonderful support that allows us to continue moving forward in service to our families and their children.

Gratefully,

Mrs. Mary Reardon, Principal
